CLAIMS:

Previously withdrawn claims 18-24 are cancelled.

The following is an examiner's statement of reasons for allowance:

Regarding claim 16, the prior art fails to teach or fairly suggest the series of steps, as argued in Applicant's response dated 11/21/2009, in particular the steps of providing blades with free end surfaces and a cover member with an inner surface both inclined at an acute, non-zero, frustoconical angles relative to an axial axis of the disk-shaped member and cover member, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
